

**FOR IMMEDIATE RELEASE**

**Robins Air Force Base optimizes server performance with up.time 4**

**Robins Air Force Base adopts up.time 4 for mission-critical server monitoring**

**Toronto, Canada, August 25<sup>th</sup>, 2006** – uptime software™ is pleased to announce Robins Air Force Base – the home of Warner Robins Air Logistics Center, the 78th Air Base Wing, and more than 60 other units that make up a vital part of the U.S. Air Force – has chosen [up.time 4](#) to increase their server and application uptime and performance, while realizing IT cost savings.

“We are continually amazed at how fast [up.time 4](#) is growing in the Public Sector, where there is a critical need for day-to-day reporting of performance and availability in server and application environments. [up.time 4](#) is able to satisfy these needs and offer large cost savings in return,” said Nick Johnson, Marketing and Communications Manager, uptime software.

New technology from uptime software is driving better performance and availability while cutting server monitoring and capacity reporting costs for customers. Customers are increasing uptime to consistently meet Service Level Agreements (SLAs) while saving between 35% and 70% on average. [up.time 4](#) has become the clear choice for customers with tight IT budgets and critical systems, server, and applications that need to be up and running 24/7.

Robins Air Force Base picked [up.time 4](#) because it’s a best-in-class solution that installs in minutes, is easy-to-use, and is more affordable than most software maker’s heavy, multi-component programs. [up.time 4](#) is enabled through a web browser interface, providing secure anytime, anywhere access that monitors across operating systems including UNIX (Solaris, AIX, HP-UX, Tru64, FreeBSD, IRIX), Linux (Red Hat, SUSE, Fedora, Debian), Windows (2000, 2003, XP) and Novell Netware with both agent and agent-less monitors. For case studies, white papers, and more, please e-mail [info@uptimesoftware.com](mailto:info@uptimesoftware.com).

- ✓ An enterprise version of up.time 4 is available for a [free 14 day evaluation download](#) at: [www.uptimesoftware.com](http://www.uptimesoftware.com). uptime software’s world class support services are free during this 14 day evaluation period to help customers drive value from [up.time 4](#) in their environments.
