

FOR IMMEDIATE RELEASE

## Rockefeller University Cut Costs for Server Monitoring, Capacity Planning with Innovative Software.

### Rockefeller adopts up.time for mission-critical server monitoring

Toronto, Canada September 15, 2006 – [Rockefeller University](#) knows that smart IT management can drive Return on Investment (ROI), cost savings, and higher productivity and have proved that with their latest installment of uptime software's enterprise server monitoring and capacity planning solution, called 'up.time.'

“up.time has two huge advantages over other server monitoring and capacity planning solutions on the market; it saves IT budget between 35% and 70% vs. competitive products and it's very easy to use,” notes Nick Johnson, Director of Marketing at uptime software. “up.time is also easy to deploy in large heterogeneous infrastructure environments. Our clients are monitoring, reporting, and graphing with our free trial version inside 30 minutes of installing it.”

Rockefeller University trusts up.time to deliver on the promise of indepth server monitoring and sees credibility in uptime's large education client list, including institutions like Texas A&M University, Boise State University, University of North Carolina, Johns Hopkins University, University of Chicago, and the University of Florida.

Rockefeller chose up.time because it's an enterprise solution that installs in minutes, is easy-to-use, and is more affordable than most software maker's heavy, multi-component programs. up.time is enabled through a web browser interface, providing secure access at anytime and from anywhere, that monitors across a mixed server environment.

This new business software technology from uptime software drives down server monitoring and capacity planning costs for customers while increasing ROI and productivity. Customers from over 30 countries agree that up.time delivers to help customers with tight IT budgets and critical systems and applications that need to be up and running 24/7.

- ✓ An enterprise version of up.time is available for a [free 14 day evaluation download](#) at: [www.uptimesoftware.com](http://www.uptimesoftware.com). uptime software's world class support services are free during this 14 day evaluation period to help customers drive value from up.time in their environments.
